EVENT REPORT

Event Report: Blood Grouping

Date: 15th July 2022

Time: 10:00 A.M.

Venue: ZPHS, Anakoderu

M. Subbaraiyadu, Head Master of ZPHS, commenced the Blood Grouping event by emphasizing the importance of knowing one's blood group for medical emergencies and blood donation. He highlighted the significance of the event in promoting health awareness and urged students to actively participate in the blood grouping process. The Head Master encouraged students to take advantage of the opportunity to learn about their blood types and to spread awareness about the importance of blood donation.

Trained medical professionals conducted blood grouping sessions for the students, where blood samples were collected and tested to determine their blood types. Students learned about the different blood groups and their compatibility for blood transfusions. The sessions provided valuable insights into understanding individual blood types and the significance of matching blood donors with recipients for safe transfusions.

Concurrent with the blood grouping sessions, health education workshops were organized to provide students with information about blood donation, its benefits, and the process of becoming a blood donor. Students were educated about the critical need for blood donors, especially during emergencies and medical treatments. The workshops aimed to dispel myths and misconceptions about blood donation and encourage students to become voluntary blood donors in the future.
