1. **Extensive Digital Resources:** Our library offers access to thousands of books, scholarly articles, and journals from esteemed publications worldwide through INFLIBNET (Information and Library Network). This network enhances information sharing and academic exploration on a national level.
2. **Modern Computing Infrastructure:** Each department is equipped with laptops, desktops, and LCDs funded through UGC grants, enhancing teaching and learning experiences through ICT implementation. Regular hardware upgrades ensure that our systems meet the evolving needs of academic pursuits.
3. **Enhanced Teaching Tools:** Utilizing LCD projectors and virtual classrooms, we facilitate interactive and engaging teaching sessions that transcend traditional boundaries. These tools empower educators to deliver dynamic content and foster collaborative learning environments.
4. **Advanced Software Solutions:** In our Autonomous section, we utilize cutting-edge software solutions such as D-Base Solution, Equation Master, .NET Framework for frontend, and SQL Server for backend operations. Additionally, tools like PageMaker aid in designing question papers and marks statements, ensuring efficient examination processes.

These initiatives underscore our commitment to providing you with state-of-the-art ICT resources that support your academic journey effectively. The integration of INFLIBNET further enriches our digital repository and ensures seamless access to scholarly literature and research databases.

We invite you to explore and leverage these facilities to maximize your learning and research endeavors. Your feedback is invaluable as we continue to innovate and enhance our ICT infrastructure to meet the demands of contemporary education.
