EVENT REPORT

Event Report: Tree Plantation Programme

Date: 15-9-2019

Time: 10:00 A.M.

Venue: COLLEGE CAMPUS

The Tree Plantation Programme organized by the NSS Unit of DNR College aimed to promote environmental conservation and increase green cover on campus.

Inauguration and Chief Guest Address: The event commenced with an inaugural ceremony where the Principal of DNR College graced the occasion as the Chief Guest. In his address, he emphasized the importance of environmental sustainability and urged students to actively participate in such initiatives.

Plantation Drive: Following the inauguration, the NSS volunteers, along with faculty members and students, actively participated in planting saplings across designated areas of the college campus. The variety of saplings included indigenous trees known for their environmental benefits and sustainability.

Demonstration on Tree Plantation Techniques: Before the plantation drive, a brief demonstration on proper tree plantation techniques was conducted by experts from the Forestry Department. This ensured that the saplings were planted correctly to enhance their survival rate.

Student Participation: NSS volunteers enthusiastically participated in the programme. Their involvement ranged from digging pits, planting saplings, watering, and placing protective fencing around newly planted trees to ensure their growth.

Awareness Session: Concurrently, an awareness session was conducted to educate students about the significance of trees in combating climate change, improving air quality, and preserving biodiversity.

Collaborative Effort: The success of the programme was also attributed to the collaborative effort between NSS volunteers, college administration, and local environmental organizations who provided logistical support and expertise.
