## 2.2 - Catering to Student Diversity

2.2.1 - The institution assesses students' learning levels and organises special programmes for both slow and advanced learners.

The institution assesses the learning levels of the students in two ways. At the time of commencement of the programme students enrolled in various programmes are identified as slow and advanced learners based on their +2 marks and the entry level test conducted by the university in case of P.G programmes. This helps to identify the slow learners and to design special coaching sessions to bridge the gap between the slow learners and the advanced learners. The mentors of the respective classes of UG and PG extend valid support in classifying the students with reports based on observation and class room tests. The institution organizes induction programmes for newly admitted students both at the college level and at the department level. The facilities in the college and the scope of the subjects to be learned are introduced in these sessions. Apart from this, sessions are also included to inculcate positive attitude and competitive spirit. This process helps as a base for monitoring the future progress of the students. Remedial Classes are conducted with an aim to improve the academic performance of the slow learners, absentees and academically backwards students.

## 2.3 - Teaching- Learning Process

2.3.1 - Student-centric methods such as experiential learning, participative learning and problem-solving methodologies are used for enhancing learning experiences:

**Student Centric methods:** The teaching learning process revolves around the need, interest and capabilities of students. Projects are done in PG and UG programmes like Biotechnology, Chemistry and Social work. Students remain active, work co-operatively, interact with each other, take responsibility and develop self confidence. It stimulates students' interest and provides an opportunity to the students for freedom of thought and free exchange of different views. Class room discussions in various topics are our regular feature. To carry out project work the topics are finalized after thorough discussion with the concerned teacher.

**Experimental/Laboratory method** is used in science courses to acquaint the students with the facts through direct experience individually. Students verify the facts and laws of the subject with the help of experiments. Activity centred method is more effective and durable in providing learning experiences..Support Structures and systems available for teachers to develop skills: Audio visual facilities are available to teachers. The institute provides Wi-Fi facility in Campus. Well-equipped English Language Lab is available in the college to improve the communication and linguistic skill. Well-furnished Computer labs with ICT oriented facilities are available.

The teaching learning process and its outcomes are being continuously monitored by IQAC. Some of the traditional teaching methods are replaced by modern ones in which ICT was mostly used. Necessary IT infrastructure was developed in the college to make use of ICT in teaching learning process. This was happened particularly during this academic year to compensate the damage created by COVID 19 to the academic environment.

The learning outcomes of every programme are being monitored and measured by way of analysing examination results and collecting and analyzing student feed back. Faculty are encouraged to participate in refresher courses, orientation programmes and FDPs so as to make them update in their subject as well as in teaching methodology.

## 7.2 - Best Practices

7.2.1 - Provide the weblink on the Institutional website regarding the Best practices as per the prescribed format of NAAC

The college has been in the for forefront in setting a bench mark in providing quality education to the stake holders and also make them as responsible citizens. In this process the college adapted several best practices. They include:

- 1. Discipline :** The college has designed a code of conduct both for students and staff. The staff should always be empathetic towards students and the students should always be respectful towards teachers.
- 2. Gender Sensitivity :** The college conducts gender sensitivity programmes periodically. The women empowerment cell and Internal complaints committee will always keep a watch on the problems of girls in the campus.
- 3. Social inclusion :** Right from the inception of the college give top priority for social inclusion. This is being reflected in recruitment, admissions and in offering different fee concessions to the students.
- 4. Plastic free Campus:** Concern for environmental protection in the

campus is reflected in the form of maintaining the campus as plastic free. Staff and students are also encouraged to use bicycles instead of motor vehicles as far as practicable.

5.Promotion of Patriotism: The college celebrated the birth and death anniversaries of all freedom fighters and national leaders. separate lectures are being arranged on those occasions.

### 7.3 - Institutional Distinctiveness

7.3.1 - Highlight the performance of the institution in an area distinct to its priority and thrust (within a maximum of 200 words)

During this academic year the college has organized a campaign on " Save Soil" concept launched by the Indian spiritual leader Shri Sadguru

Shri sadguru to create awareness about soil degradation and its consequences. The college organised a rally with 500 students and 50 staff members in Bhimavaram town. This rally was followed by a meeting arranged in our college in which one of the activists of save soil campaign Dr.Vijaya Lakshmi , M.D who is a medical doctor by profession has participated. We have received a very good response from both the citizens and students for the rally and meeting.

Our students have conducted surveys in near by villages of Bhimavaram on community service like education, health, sanitary ,drinking water etc., these surveys have also conserved the aspects of socio economic conditions of people in those selected villages. During these surveys our students have visited every house hold in that village and collected data. Drinking water samples were collected and tested in the lab and we have sent those results / reports to the respective village administration.

### 7.3.2 - Plan of action for the next academic year

Due to COVID 19 , The academic work in the years of 2020-21 and 2021-22 was badly affected. During this year also we were unable to conduct co-curricular activities including seminars / conferences etc., in a befitting manner. Keeping this in mind we are planning

1. To streamline the academic year by imparting the education both by online and offline
2. To conduct Seminars / Workshops and Guest lectures
3. To introduce a new programme in aquaculture at P.G level and
4. To take up extension activities in the near by villages.
