2.3.2 – Students mentoring system available in the institution? Give details. (maximum 500 words)

Mentor A mentor is a teacher acting both as a friend and a role model who supports and encourages a student in his/her academic and personal growth. The mentor guides a student in his /her academic pursuits and emotional and psychological development, particularly in the latter's transition phase. The mentor also guides his wards in how much they should try to achieve and how DNR College has adopted and implemented a Mentoring System as a student support measure. The system, though flexible, functions along well-defined lines. Each faculty member is the mentor of a group of 40 to 50 students allocated to him/ her by the Head of the Department. The teacher mentor collects personal information from the ward without touching sensitive issues or forcing any information out of the wards and then provides the needed counselling to the wards. Critical issues are brought in the notice of the Head of the Department. The teacher meets the wards informally outside class hours as well and guides them regarding their career options. A documented record of the mentoring process is maintained by the mentor teacher and the Head of the Department for reference purposes. Mentoring System The process of Mentoring is an individualized form of counselling and guidance activities. It addresses the needs of the students to have a friend, a counsellor and a confidante on the campus. The practice is aimed at fostering a better rapport between the students and the teachers at a personal level. Effective mentoring begins with the faculty and depends upon the healthy relationship between faculty and students. • Professional Guidance – regarding professional goals, selection of career, higher education. • Career advancement – regarding self-employment opportunities, entrepreneurship development, morale, honesty, and integrity required for career growth. • Course-specific – regarding attendance and performance in the present semester and overall performance in the previous semester. • Lab-specific – regarding Do's and Don'ts in the lab. Responsibilities of the Mentor • Meets the group of students at least twice a month. • Continuously monitors, counsels, guides and motivates the students in all academic matters. • Advises students regarding choice of electives, project, summer training etc. • Contacts parents/guardians if situation demands e.g. academic irregularities, negative

behavioural changes and interpersonal relations, detrimental activities etc. • Advises students in their career development/professional guidance. • Keeps contact with the students even after their graduation. • Intimates HOD and suggest if any administrative action is called for. • Maintains a detail progressive record of the student (format attached). • Maintains a brief but clear record of all discussions with students.

5.3.2 – Activity of Student Council & representation of students on academic & administrative bodies/committees of the institution (maximum 500 words)

Dantuluri Narayana Raju College is an autonomous college which runs under the management of D.N.R.College Association. According to the existing rules, the elections to various student councils have been banned since 1988. However, the leadership qualities of students are supposed to be encouraged and protected. Keeping this point in view, the college administration encourages students to represent in most of the college level committees. The College has student representation in various committees of the college. Mostly, 2 toppers of each section are nominated as student representatives of the respective sections. In addition to these, the college has strong, organised student associations with various portfolios. These associations will cater the urgent needs of the student community to carry forward student problems to the college academic and overall administration from time to time. Most of the times, all the committees consist of faculty members as members of the committees. Most of the problems are solved at the committee level. Further, these associations will take active part in all the college organised activities throughout the calendar year. These associations will be thoroughly guided by the faculty members and Principal of the college. The students associations enrich the academic, cultural and social life of the college as the college provides number of opportunities to expand their talents to the best extent possible. The proctor system available in the campus will continuously monitor all the students and the respective associations. The proctors will also provide the necessary guidance as and when required. Student participation in the council and various academic and administrative bodies and committees helps them gain experience of conducting meetings, making decisions, managing an organization, how to plan an event, how to solve problems, how to respect each other, how to guide, how to speak, how to collaborate, how to lead, etc.,.. The class representatives of each class play an important role in the planning of College events and social

awareness activities, viz., rallies, public awareness campaigns, Independence Day and Republic Day celebrations, Death and birth anniversaries of freedom fighters, Teachers Day etc.,. All the students are equally encouraged to take active part in almost all events like receiving guests, organising the series of events of the respective programs, selection of MCs, conclusion of the programme etc.,. so that self confidence is build up in every student.

Students, in particular NCC cadets and NSS volunteers take active part in connection with the organization various programmes of the college viz., Campus Recruitment Drives, Organising Blood Donations Camps, Fund Raising programmes for various social causes, etc.,. They play a significant role in designing the academic calendar, curriculum, fixing the dates of examinations, schedule of vacations, re-opening, local holiday decisions in connection with local festivals, etc.,. The student councils always stand front in college/government programmes like, 'Swatch Kalasala', 'Vanam Manam', Swachata pakhwada, swachata hee seva, etc.,. Thus, all the students are provided with equal and wide opportunities and encouraged to participate in various academic, administrative, developmental and social service activities from time to time

1. Title of the practice: Introduction of Job oriented courses 2. Objective of the practice: The basic objective of the institution of job oriented courses, year after year is to equip the students with needed skills, to meet the ever changing of the expectations of the industry and market place. The underlying principle of this practice is to offer multi disciplinary courses to gear up the learning abilities of the students with emphasis on technology and marketability of the student. 3. The context: The Godavari districts are known as the rice bowl of the State with traditional monsoon based paddy cultivation supported by the irrigation canal system. In the last two decades a significant

change has taken place in the agricultural economy through Blue Revolution i.e. cultivation of fish, prawn and crab under controlled conditions through ponds.

Labor intensive paddy cultivation is slowly being replaced by the capital intensive aquaculture resulting in more jobs in water testing, hatcheries, feed manufacturing and packaging and transportation of the harvest. 4. The Practice:

The traditional courses being offered at UG level even in science faculties don't empower an average student to meet the market requirements in this part of the country. In this background new programs are designed by combining applied life sciences and computer science with emphasis on aquaculture technology to make the student market ready and develop entrepreneurial talents to convert the job seekers into job providers. The specific newly introduced courses include Microbiology, Biochemistry, Computer Science (MBCs)

Microbiology, Chemistry, Computer Science (MCCs) and Zoology, Chemistry, Aquaculture Technology (ZCA) Constraints: In spite of the best efforts of the institution in designing and administering the programs, increasing in demand by admissions is not up to the mark. 5. Evidences of success: It is established

that students doing the above mentioned job oriented courses are very much satisfied with the course content and market relevance and are enthusiastic to pursue Post graduation and to establish Quality testing labs. Some students are even enthusiastic to become entrepreneurs in the field of aquaculture. Thus modern education is tuned to make the traditional aquaculture more profitable and eco-friendly. 6. Problems Encountered and Recourses Required: For any

endeavor human resource is vital to make the project successful. Faculty with research experience has become a scarce input in spite of the best efforts of the institution. Model forms for hatcheries and scientific cultivation practices in aquaculture needs huge investments in terms of land and capital.

For obvious reasons students are compromising with field visits and study tours. 7. Notes: An integrated approach of the Government through Fisheries Department, Marine Products Exports Development Authority, University, Revenue Department and Cooperatives in planning and development of aquaculture forms with emphasis on water management, seed development and transparent policy in procurement, warehousing, transportation and pricing of produce goes a long way in achieving higher targets for the export oriented aquaculture industry in the State of Andhra Pradesh which is blessed with a very long coast line. Practice -2 1. Title of the practice: Cooperative credit to the staff 2. Objectives of the Practice: Living to the slogan "One for All and All for One", the college has initiated a Cooperative Credit Society in early 1950s to achieve economic democracy by cultivating the habit of thrift among the teaching and non-teaching staff of the college. Every member has to contribute ten percent of their loan eligibility as share capital, on which one will get yearly dividend. The basic objective is to ensure funds available for any genuine reason such as education, health, family functions or other contingencies. 3. The Context: The contextual background of the cooperative credit society is the Management's experience in demand for salary advances for the employees regularly for many reasons. In spite of the best efforts of the management in sanctioning interest free salary advances, a permanent institutional arrangement was felt needed. The basic premise for establishing cooperative credit society in the college is to take advantage of the concessional credit extended to cooperatives by the State Cooperative Federation. A regular savings habit and building up of share capital will result in a good amount at the time of retirement of the employee. Financial education and sense of security goes a long way in improving quality of work life. The Practice: With the sole objective of economic welfare of the employees by adhering to the principles of Cooperative Societies Act, management and functioning of the credit society is looked after on honorary basis under the chairmanship of the Principal. The services of experienced employees from office as well as faculty are opted to form the executive body of the society. The designated Secretary maintains the books of accounts,

compliance of the guidelines in administering the financial transaction. Periodically credit requirements are enumerated, consolidated and submitted to the District Cooperative Bank. The sanctioned credit loans are disbursed as per guidelines. Equated Monthly Installments are collected from salary of the borrowers. In case of any emergency, at the discretion of the Principal and executive body, additional credit will be sanctioned as per the eligibility norms of the applicants. 5. Evidence of Success: Cooperative credit society in the college is a proven success and enjoyed good patronage of the employees of the college. The demand for its service is ever increasing. The success rate is 100 per cent. Cooperative department audit reports also vouch for the success of the society and its contribution in ensuing credit availability at a very reasonable interest to the satisfaction of one and all. Dividend declared over the years is also a clear testimony to the success of the practice. 6. Problems Encountered and Resources Required: In spite of the good track record of the society encounter problem in meeting the credit needs of the temporary and contingent staff for want of availability of guarantees due to uncertainty in their service. Another problem encountered in implementing the credit is the ceiling set by the cooperative department per employee is coming the way of providing long term loans for purposes such as housing, education and some other valid reasons. A matching grant from the college Management as well as State government will go a long way in ensuing better credit to the employees at a lower rate of interest on liberal terms with extended liberal repayment schedule to lessen the economic burdens at home to improve the job satisfaction of the staff for better rededication to work for the intuitional goals. 7. Notes: Cooperative movement in India may not be of that much successful, but it should succeed to achieve the goal of economic democracy. The cooperative spirit may be extended to student community in the campus and off the campus. Every alumnus may be associated with the institution through a cooperative umbrella. To inculcate institutional values and best practices in the university fold cooperative perspective will be a better tool make one and all involved in the process of multifaceted development of teaching-learning-evaluation and extension activities.

7.3 – Institutional Distinctiveness

7.3.1 – Provide the details of the performance of the institution in one area distinctive to its vision, priority and thrust in not more than 500 words

D.N.R. College was established prior to independence to our country to provide higher education to the poor uneducated rural masses for their holistic development and welfare of the people of West Godavari and its surrounding districts. So, since its inception the college has been striving its best to provide quality education at the least cost to the students and became instrumental in the educational development of the area. In tune with this the Management of the college has been continuously searching for and creating necessary ways and means for a student to pursue studies though the student is utterly poor and even not getting any kind of scholarship from the government/getting meagre amount not sufficient to pursue the studies. The college took the bold initiatives of providing hostel facilities to both boys and girls. Majority of the students joined in the college are financially assisted by the social welfare scholarships by the Government. A large chunk of students belonging to OC categories are unable to join the hostels due to lack of appropriate social welfare schemes. Hence, in order to help such OC poor students the college has been maintaining two separate hostels for boys and girls. The Subbaraju Bhavan for boys and the Gokaraju Lyla Gangaraju hostel for

girls are maintained by the donors and family of the President of the college and Alumni. Some other poor students are provided lunch and dinner at Dantuluri Jagannadha Raju Choultry Efforts were made successfully. Thus, the issue of lodging and boarding for the poor students who can't bear atleast single rupee is addressed successfully. Apart from this, for pocket money to cater to the other needs, Poor Boys fund of the college has been utilized to the best extent possible. Apart from the facilities mentioned above, one faculty member of the college, Jhansi Lakshmi, PG Department of social work came forward to help the still uncovered students from a Trust, 'Mantena Ramalinga Raju Kantamma Foundation' founded by her parents. This Trust gives away cash awards, books and kits for competitive examinations. Alluri Sitarama Raju Kshatriya Seva Samithi which is a Non Government Organisation founded by some philanthropists belonging to Kshatriya community. Some of the Governing Body members of the college management have been actively working as Executive Members in the said organization. Every year this organization has been offering yearly scholarships to some of the meritorious students of the college. In addition to the above, the management of the college has been offering fee concessions to the economically backward students and Examination fee remissions to the differently abled students. Thus, this institution debarred poverty of a student irrespective of caste, creed or religion to enter in any course and pursue studies and realize abilities. Here, a realized practice is hoped to be realized at national level for progress of our country.
