### CURRICULAR ASPECTS

#### 1.1 - Curriculum Design and Development

1.1.1 - Curricula developed and implemented have relevance to the local, national, regional and global developmental needs which are reflected in Programme Outcomes (POs), Programme Specific Outcomes (PSOs) and Course Outcomes (COs) of the various Programmes offered by the Institution.

The Curriculum is designed in such a way to meet the Social and Economic needs at the local as well as the Global level. In this process the holistic development of the student is also given top priority. Internship projects for both UG and PG Students are introduced as a part of the curriculum. While assigning these projects the local needs like problems of agricultural entrepreneurs, Aqua Culture entrepreneurs, Street vendors,

producer of local traditional products like lase products, preparation of traditional sweets etc., are taken into consideration. The socio economic problems like small savings , Rural employment , Health and sanitation , Self Help Groups(SHG) are also concerned while assigning projects.

**1.3 - Curriculum Enrichment**

1.3.1 - Institution integrates cross-cutting issues relevant to Professional Ethics, Gender, Human Values, Environment and Sustainability, and Human Values into the curriculum

Cross cutting issues like gender, environment and sustainability, Human values and Professional ethics are being given an impressive place in curriculum design and development. Gender sensitization theories claim that modification of the behaviour of teachers and parents etc., towards children which can have a casual effect on gender equality. Gender sensitisation is about changing behaviour and instilling empathy into the views that we hold about our own and the other genders. Gender Sensitization involves creating awareness about gender issues and working towards and creating an enabling environment of gender equality where men and women can work together with a sense of personal security and dignity.

No longer the second sex is inferior to the man. To instil the gender sensitivity, the success stories and biographies of world renowned women in literature, science and technology, space research, sports & games have been introduced in the curriculum of

undergraduate programmes.

It is indeed that scientific and technological development is a double edged sword. It has been improving the standard of living of the humans but at the same time, it has been pushing down the liver of humans into extremely dangerous situation by polluting the Environment.

## 2.2 - Catering to Student Diversity

2.2.1 - The institution assesses students' learning levels and organises special programmes for both slow and advanced learners.

The institution assesses the learning levels of the students in two ways at the time of commencement of the programme. Students enrolled in various programmes are identified as slow and advanced learners based on their +2 marks and the entry level test conducted by the university in case of P.G programmes. This helps to identify the slow learners and to design special coaching sessions to bridge the gap between the slow learners and the advanced learners. The tutors of the respective classes of UG and PG extend valid support in classifying the students with reports based on observation and class tests.

### Strategies adopted for slow learners

Remedial Classes are conducted with an aim to improve the academic performance of the slow learners, absentees and academically backwards students.

Academic and personal counseling are given to the slow learners by the mentor/proctor and the counseling cell.

Bilingual explanation and discussions are imparted to the slow learners after the class hours for better understanding

Participation by the students in the in-house competitions such as Debate, Group Discussion,

Problem Solving – Decision Making Exercises and Quiz Programmes are also encouraged.

Talented students are motivated to participate in extra-curricular activities, exhibitions and cultural competitions.

## 2.3 - Teaching- Learning Process

2.3.1 - Student-centric methods such as experiential learning, participative learning and problem-solving methodologies are used for enhancing learning experiences:

**Student Centric methods:** The teaching learning process revolves around the need, interest and capabilities of students. Projects are done in PG and UG programmes like Biotechnology, Chemistry and Social work. Students remain active, work co-operatively, interact with each other, take responsibility and develop self confidence. It stimulates students' interest and provides an opportunity to the students for freedom of thought and free exchange of different views. Class room discussions in various topics are our regular feature. To carry out project work the topics are finalized after thorough discussion with the concerned teacher.

Experimental/Laboratory method is used in science courses to acquaint the students with the facts through direct experience individually. Students verify the facts and laws of the subject with the help of experiments. Activity centred method is more effective and durable in providing learning experiences..

Support Structures and systems available for teachers to develop skills:

Audio visual facilities are available to teachers.

The institute provides Wi-Fi facility in Campus.

Well-equipped English Language Lab is available in the college to improve the communication and linguistic skill.

Well-furnished Computer labs with ICT oriented facilities are available.

2.3.2 - Teachers use ICT-enabled tools including online resources for effective teaching and learning

Almost all the faculty members are making use of ICT to make the teaching learning program more effective and student centric. There are three smart class rooms and four seminar halls which are well equipped with the latest ICT equipment like LCD Projectors, Web Cams, Smart Boards, motion camars and stand camars. For this purpose Internet with 200 mbps capacity is maintained in the campus.

## 6.5 - Internal Quality Assurance System

6.5.1 - Internal Quality Assurance Cell (IQAC) has contributed significantly for institutionalizing quality assurance strategies and processes visible in terms of incremental improvements made during the preceding year with regard to quality (in case of the First Cycle): Incremental improvements made during the preceding year with regard to quality and post-accreditation quality initiatives (Second and subsequent cycles)

Internal Quality Assurance Cell (IQAC) has contributed significantly for institutionalizing the Quality assurance strategies and processes IQAC ensure the following. 1.A high degree of perfection in the functioning of the college.

2.Involving the students in academic and institutional decision making. 3.To encourage all teachers to attend and present papers in seminars and workshops and to involve in research activities. The IQAC has initiated various Quality enhancement measures. It is instrumental in the extension of autonomy for fourth time and in getting the status of College with Potential for Excellence (CPE). Promotion of research Culture: As a second quality initiative, The IQAC has taken measures to promote research culture among the staff and students. Seed money has been paid to six staff members who have registered themselves for PhD work. Eleven faculty members are identified as research guides by the affiliating university. Two major research projects, financially assisted by UGC and DST in the department of physics are going on a result IQAC initiation. Research culture is inculcated at the student level and students collaborate with faculty to submit research papers at seminars and workshops. The innovation and incubation centre have been setup to promote research culture among students.

6.5.2 - The institution reviews its teaching-learning process, structures and methodologies of operation and learning outcomes at periodic intervals through its IQAC as per norms

The institution reviews its teaching learning process, structures and methodologies of operations and learning outcomes at periodic intervals through IQAC. It has developed effective norms to review and achieve the best learning outcomes. The IQAC undertakes a periodical review of teaching learning activities such as Annual Academic plans, teaching dairies, teaching notes, Bridge courses, Remedial Coaching etc., The IQAC has designed an effective feedback mechanism on teaching learning scenario in the college. The IQAC reviews and reforms the teaching learning process based on the feedback from stake holders. Under the provision of Autonomy, the liberty is taken to add or select programmes, courses or course contents to suit market demands. In the beginning of the Academic year the IQAC reviews the work load based on the sanctioned strength of students and recommends the principal to appoint the required number of faculty to facilitate smoth running of classes. The IQAC held a series of meetings with senior faculty and pedagogy experts to devise a number of student centric pedagogy tools such as PPTS, AV aids, group discussions, games, projects, class room seminars, role plays, surveys etc. to revitalize the teaching learning scenario.

### CURRICULAR ASPECTS

#### 1.1 - Curriculum Design and Development

1.1.1 - Curricula developed and implemented have relevance to the local, national, regional and global developmental needs which are reflected in Programme Outcomes (POs), Programme Specific Outcomes (PSOs) and Course Outcomes (COs) of the various Programmes offered by the Institution.

The Curriculum is designed in such a way to meet the Social and Economic needs at the local as well as the Global level. In this process the holistic development of the student is also given top priority. Internship projects for both UG and PG Students are introduced as a part of the curriculum. While assigning these projects the local needs like problems of agricultural entrepreneurs, Aqua Culture entrepreneurs, Street vendors, producer of local traditional products like lase products, preparation of traditional sweets etc., are taken into consideration. The socio economic problems like small savings , Rural employment , Health and sanitation , Self Help Groups(SHG) are also concerned while assigning projects.

**1.3 - Curriculum Enrichment**

1.3.1 - Institution integrates cross-cutting issues relevant to Professional Ethics, Gender, Human Values, Environment and Sustainability, and Human Values into the curriculum

Cross cutting issues like gender, environment and sustainability, Human values and Professional ethics are being given an impressive place in curriculum design and development. Gender sensitization theories claim that modification of the behaviour of teachers and parents etc., towards children which can have a casual effect on gender equality. Gender sensitisation is about changing behaviour and instilling empathy into the views that we hold about our own and the other genders. Gender Sensitization involves creating awareness about gender issues and working towards and creating an enabling environment of gender equality where men and women can work together with a sense of personal security and dignity.

No longer the second sex is inferior to the man. To instil the gender sensitivity, the success stories and biographies of world renowned women in literature, science and technology, space research, sports & games have been introduced in the curriculum of undergraduate programmes.

It is indeed that scientific and technological development is a double edged sword. It has been improving the standard of living of the humans but at the same time, it has been pushing down the liver of humans into extremely dangerous situation by polluting the Environment.

## 2.2 - Catering to Student Diversity

2.2.1 - The institution assesses students' learning levels and organises special programmes for both slow and advanced learners.

The institution assesses the learning levels of the students in two ways at the time of commencement of the programme. Students enrolled in various programmes are identified as slow and advanced learners based on their +2 marks and the entry level test conducted by the university in case of P.G programmes. This helps to identify the slow learners and to design special coaching sessions to bridge the gap between the slow learners and the advanced learners. The tutors of the respective classes of UG and PG extend valid support in classifying the students with reports based on observation and class tests.

Strategies adopted for slow learners

Remedial Classes are conducted with an aim to improve the academic performance of the slow learners, absentees and academically backwards students.

Academic and personal counseling are given to the slow learners by the mentor/proctor and the counseling cell.

Bilingual explanation and discussions are imparted to the slow learners after the class hours for better understanding

Participation by the students in the in-house competitions such as Debate, Group Discussion,

Problem Solving - Decision Making Exercises and Quiz Programmes are also encouraged.

Talented students are motivated to participate in extra-curricular activities, exhibitions and cultural competitions.

### 2.3 - Teaching- Learning Process

2.3.1 - Student-centric methods such as experiential learning, participative learning and problem-solving methodologies are used for enhancing learning experiences:

**Student Centric methods:** The teaching learning process revolves around the need, interest and capabilities of students. Projects are done in PG and UG programmes like Biotechnology, Chemistry and Social work. Students remain active, work co-operatively, interact with each other, take responsibility and develop self confidence. It stimulates students' interest and provides an opportunity to the students for freedom of thought and free exchange of different views. Class room discussions in various topics are our regular feature. To carry out project work the topics are finalized after thorough discussion with the concerned teacher.

Experimental/Laboratory method is used in science courses to acquaint the students with the facts through direct experience individually. Students verify the facts and laws of the subject with the help of experiments. Activity centred method is more effective and durable in providing learning experiences..

Support Structures and systems available for teachers to develop skills:

Audio visual facilities are available to teachers.

The institute provides Wi-Fi facility in Campus.

Well-equipped English Language Lab is available in the college to improve the communication and linguistic skill.

Well-furnished Computer labs with ICT oriented facilities are available.

2.3.2 - Teachers use ICT-enabled tools including online resources for effective teaching and learning

Almost all the faculty members are making use of ICT to make the teaching learning program more effective and student centric. There are three smart class rooms and four seminar halls which are well equipped with the latest ICT equipment like LCD Projectors, Web Cams, Smart Boards, motion camars and stand camars. For this purpose Internet with 200 mbps capacity is maintained in the campus.

## RESEARCH, INNOVATIONS AND EXTENSION

### 3.1 - Promotion of Research and Facilities

3.1.1 - The institution's research facilities are frequently updated and there is a well-defined policy for promotion of research which is uploaded on the institutional website and implemented

The Institution has a well defined research policy. 24 members of faculty are doctorates and around 10 faculty members are actively pursuing research for their doctoral degrees. The institution provides seed money every year to the eligible faculty pursuing research. The college always encourage faculty to present papers in National and International seminars and publish papers in reputed journals. If any faculty member acquire Ph.D degree or qualified in NET examination additional increment will be initiated to the respective faculty member. A separate research committee is constituted in the college under the chairmanship of the Principal. The eligible research guides and some of the doctorates are the members of the committee. This committee will periodically meet to review the research activity in the college and make appropriate suggestions.
